MY NAME IS

JOSHUA BLIGNAUT

I am a Creative and versatile Graphic Designer with a strong focus on illustration, branding, and visual storytelling. Skilled in Adobe Photoshop, Illustrator, and digital design tools, with experience developing impactful posters, clothing designs, and portfolio showcases. Passionate about blending darker aesthetics with bold, disruptive layouts that capture attention and leave lasting impressions. A collaborative team player who thrives in group projects but also excels independently, bringing both technical expertise and innovative ideas to every brief. Driven to create meaningful designs that resonate with audiences and elevate brand identity.

WHAT IS MY BRAND FALLEN MASTERPIECE STUDIO

As a graphic designer, I approach every project as an opportunity to translate emotion, symbolism, and experience into visual form. Through my degree in Graphic Design, I've learned to combine conceptual thinking with technical skill, bridging the gap between structured design principles and raw creative expression. My work often explores themes of creation, transformation, and the beauty found in imperfection, reflecting how I view both art and life. I'm drawn to the tension between chaos and harmony, using contrast, texture, and form to create designs that resonate on a deeper, more human level. Beyond just making something look good, I aim to make people feel something to create work that lingers, provokes thought, and captures a moment in time that might otherwise fade. meaningful designs that resonate with audiences and elevate brand identity

ILLUSTRATION (DIGITAL)

Here is a collection of illustrations I have done over the last year and a half. The improvement in my style and colour choices

POSTERS

Here is one of my passions where I make posters of things I like, design or find interests in, it is one of my favorite things to do and here are my best.

PHOTOGRAPHY

Photography is a fun way for me to capture interesting products and place them in a fun environment, I also like taking pictures of things some people might not pay mind to but that I find beautiful. The post process of the photography is where I shine as I have a keen eye for detail and colour. I enjoy being able to take a boring image and turn it into something colourful or moody.

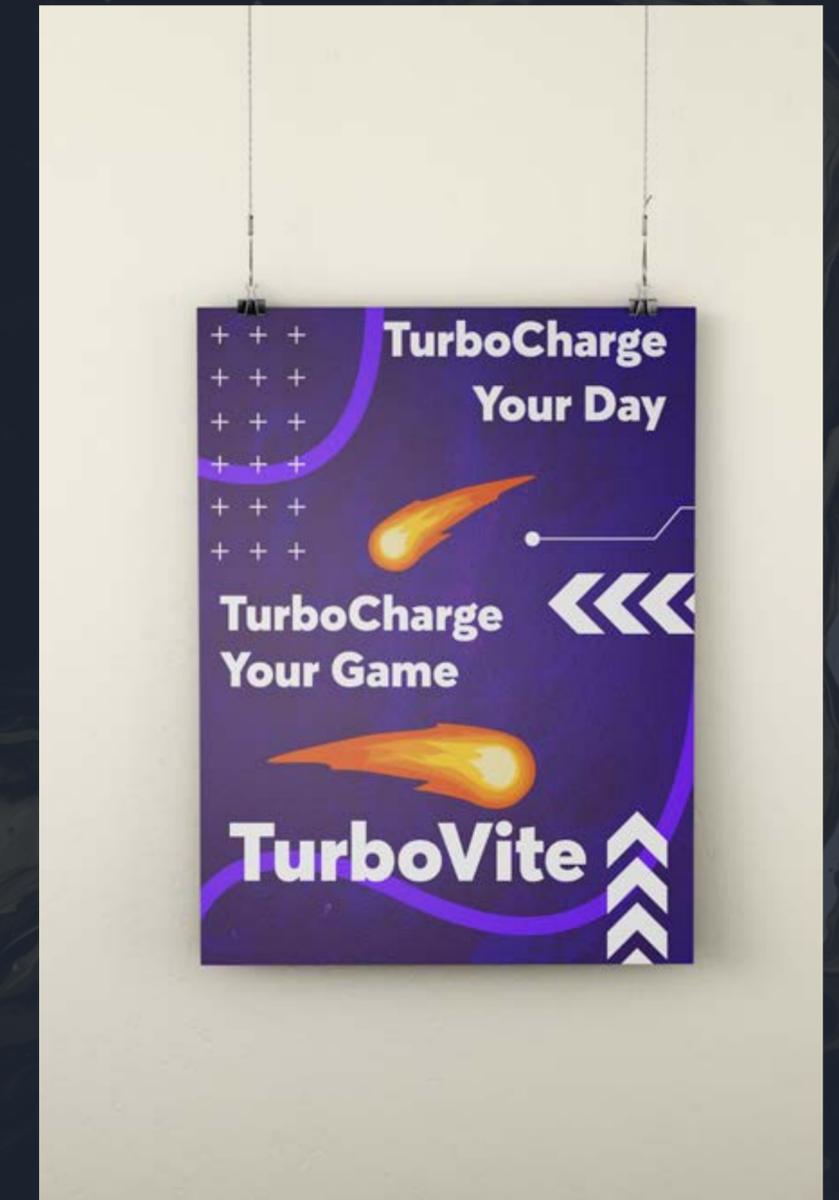

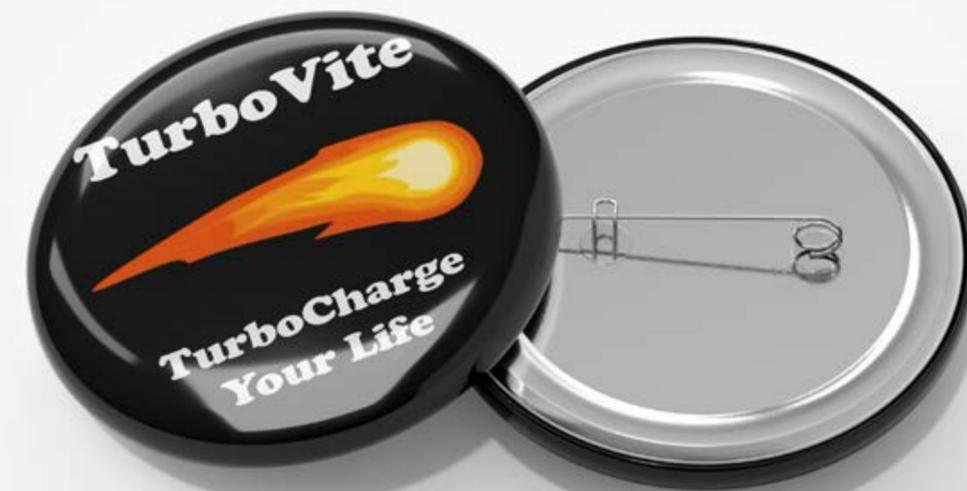

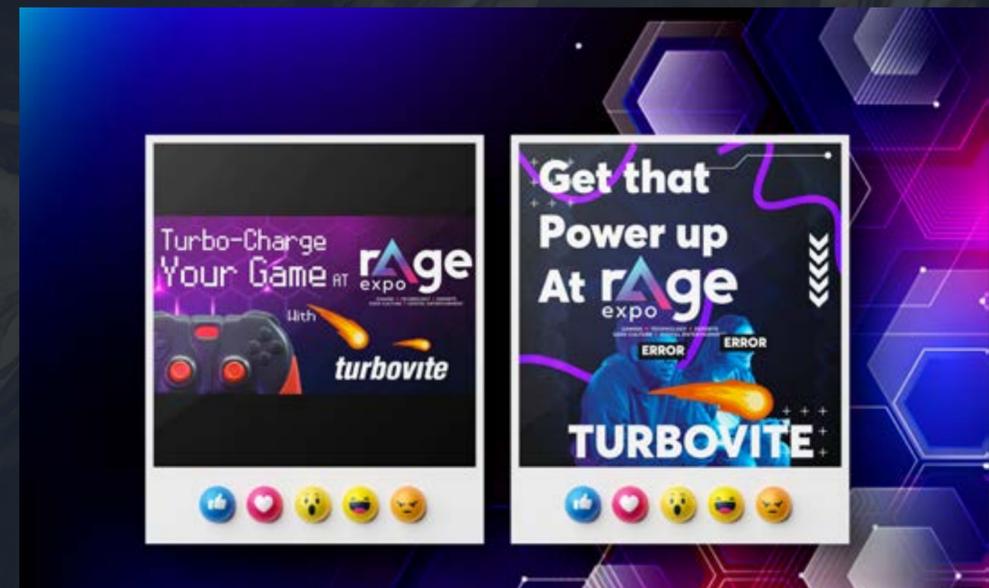

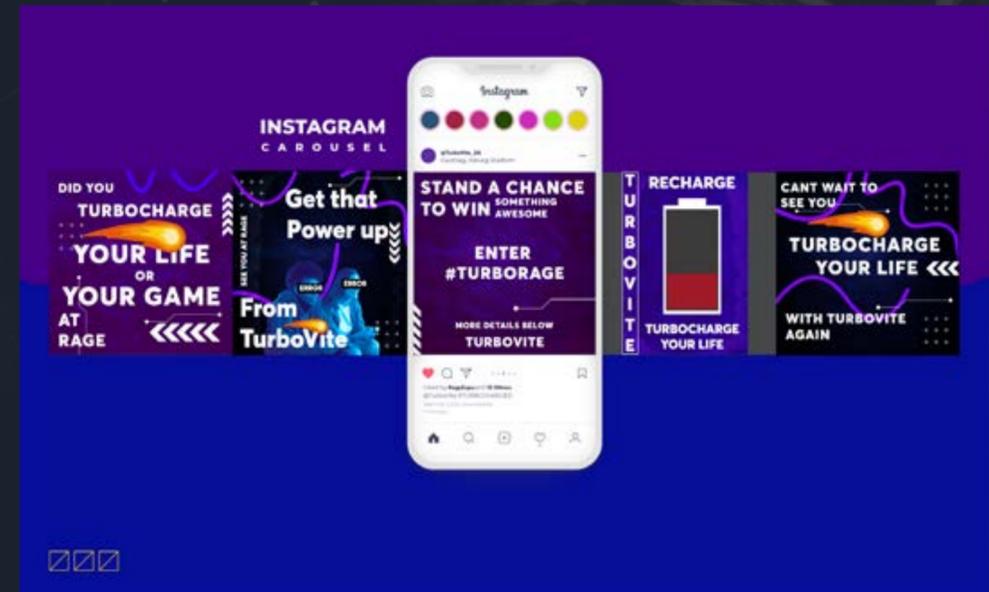

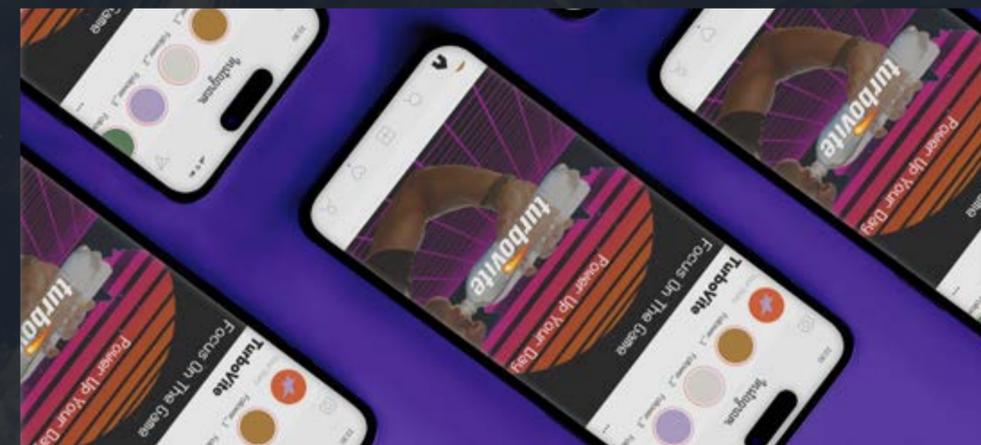

PROFESSIONAL WORKS

Throughout my studies I do have years in the market. Throughout my 3 years working of working I have created graphics for an IT company APPsolve and worked on a campaign for RedSeptember. Here is some of my favourites.
